

# Hepatitis C Claims Guide: Summary and Worksheets

Your own working pages. These are your notes in your own words. They are not a VA form, they are not sent to the VA, and nothing here is a medical finding or a prediction about your claim.

## Start with the essentials

- 1 Build one complete risk-factor timeline**  
List possible in-service and post-service risk factors with dates and records. Do not omit a factor because it appears unfavorable; the medical reviewer needs the full history.
- 2 Keep diagnosis, current residuals, and treatment distinct**  
Organize testing, treatment response, current symptoms, and residual conditions as the record describes them.
- 3 Use evidence without writing the nexus yourself**  
A timeline helps a clinician evaluate the history. The cause and medical connection remain medical questions, and the Board figures describe published decisions rather than your odds.

## How to use this packet

Complete only what helps you prepare. Use approximate dates when exact dates are unavailable. Mark records as missing or unverified instead of guessing.
