

# Sinusitis and Rhinitis Claims Guide: Summary and Worksheets

Your own working pages. These are your notes in your own words. They are not a VA form, they are not sent to the VA, and nothing here is a medical finding or a prediction about your claim.

## Start with the essentials

- 1 Start with the diagnosis and objective testing**  
Record the diagnosed condition, testing, imaging, and treatment. Keep different respiratory or nasal diagnoses separate.
- 2 Track episodes and treatment requirements**  
Note flare frequency, infections or attacks, medicines, procedures, and urgent or routine care as the record describes them.
- 3 Describe breathing and daily effects**  
Record what exertion, sleep, work, or ordinary activities are limited, without estimating test results or assigning yourself a rating.

## How to use this packet

Complete only what helps you prepare. Use approximate dates when exact dates are unavailable. Mark records as missing or unverified instead of guessing.
