

ASTHMA C&P EXAMINATION GUIDE

Bring the examiner a complete, dated account of testing, treatment, and attacks.

FEV₁ FLOW FVC 6602

RESPIRATORY FIELD NOTES

VERIFY EACH ROUTE

LIST

Medication list

Bring current and recent medications with doses, routes, and frequency.

COURSES

Steroid history

List each oral or injected corticosteroid course during the relevant year.

VISITS

Exacerbation care

Identify physician, urgent-care, emergency, and hospital visits required for flares.

HISTORY

Verified attacks

Describe attack frequency and provide records when examination-day findings are quiet.

Report symptoms accurately. Do not stop prescribed medication or provoke an attack for an examination.
