

BREAST CANCER RESIDUALS

DC 7630 directs chronic residuals to functional impairment, scars, lymphedema, disfigurement, and DC 7626.

EVIDENCE PLATE

CLAIM FILE

SURGERY	Breast surgery Use DC 7626 and document the exact procedure, laterality, and tissue removed.	LYMPH	Lymphedema Record limb measurements, compression treatment, persistence, skin changes, and functional loss.
SCAR	Scars and disfigurement Measure each scar and record pain, instability, adherence, and functional restriction.	ARM	Shoulder, arm, and grip Document motion, strength, sensation, pain, and occupational limitations.
RECON	Reconstruction residuals Identify donor-site muscle loss, scars, nerve symptoms, and additional procedures.	MH	Mental health A separately diagnosed condition requires evidence linking it to cancer or treatment.
