

GERD AND MEDICATION CLAIMS

Build a medication theory as a documented causal chain.

WHAT TO DOCUMENT

DIGESTIVE CLAIM FILE

DRUG	Name and dose List the medication, prescribed dose, frequency, start date, and changes over time.	WHY	Service-connected indication Show the drug was used to treat an already service-connected disability.
TIME	Symptom timeline Compare GERD onset and worsening with medication exposure and treatment changes.	OPINION	Causation or aggravation Ask the clinician to address competing causes and whether the medication caused or worsened GERD.
