

GERD RATING RULES CHANGED

The May 19, 2024 schedule revision created DC 7206 and replaced the old analogous hiatal-hernia framework.

WHAT TO DOCUMENT

DIGESTIVE CLAIM FILE

BEFORE	Old analogous approach GERD was commonly rated by analogy under old DC 7346 using the former 10, 30, and 60 percent symptom framework.	MAY 19	Effective date The revised digestive schedule became effective May 19, 2024.
CURRENT	DC 7206 The current 0, 10, 30, 50, and 80 percent ladder is based on stricture, dysphagia, and treatment.	PENDING	Check both periods A claim spanning the change can require separate analysis of the rules in effect for each period.

Do not present the old DC 7346 symptom table as the current GERD rating criteria.
